United Way
of Northeast Florida

Let's Get Started!

1. Purchase two 5 foot lengths of different fleece fabrics. One a gender youth pattern, and the other a coordinated solid. Fabrics are available at Walmart and JoAnn.
2. Fleece fabrics should be cut in 30 inch squares (4 pieces = 2 smaller carpets).
3. Lay the panels of fleece on top of each other so they match.
4. Cut a 2 inch square into each corner so when you tie your fringe your final project will be square and not rounded.
5. With a pair of scissors cut 3 inch fringe an inch apart along all 4 sides of the panels of fleece. You may use a straight edge and chalk to mark your line 3 in. line to make sure fringe is even.
6. Tie your top fringe to your bottom fringe for a completed Magic Reading Carpet!
